

શું તમને ખેતી કરવાનું અથવા ખેતી વિષે જાણવું એવી ઈચ્છા છે ?

આ જાહેરાત આપનાં ઘરના યુવાનો ને જરૂર થી વંચાવો

Are you interested in farming or knowing about farming? Are you ready to get your hands in the agricultural fields but don't know much about it?

- Conventional agriculture has advanced a lot with the always growing technology.
- Students living in urban areas are unaware of Agriculture and its allied fields.
- Core conventional agriculture, horticulture, floriculture, Nursery, etc. are some of the fields associated with this.
- Besides post growing and harvesting these crops there is a large opportunity available to market them.

DDKF invites the #KVOYOUTH to explore this arena by enrolling for a hands-on internship for 8-10 weeks. An opportunity to interact with agriculture students and to work on the farms. Get a chance to understand the use of technology in the entire process of farming. Learning at the Internship can lead to Entrepreneurship.

Join the DDKF Agri Internship #OPENHOUSE to know the various opportunities that are available in this sector. Internship is available for students after 12th Std.

Students interested to participate can register on www.ddkf.org to join the open house on Sunday, 24th April at 10.00am at Matushri velbai Sabhagruha, Matunga.

Stipend: TBD after open house meet

Timeline of the Internship: TBD after open house meet

Lodging/ Boarding of Interns: TBD after open house meet
