

What is InnoQuest Digital?

2019 marked the launch of Tod- Fod- Jod (TFJ) in Mumbai; an initiative of Vadodara Innovation Council (VIC) under the mentorship of the Chairman- Emeritus of International Centre for Entrepreneurship and Technology (I- Create), Mr. Madhukumar Mehta. I-Create, was founded under the dynamic leadership of Honourable Prime Minister Shri Narendra Modi.

As an earnest effort to wean away students from the virtual world to the realistic world, from rote learning to start thinking and asking questions, DDKF alongwith VIC started TFJ sessions for students in Mumbai.

Tod- Fod- jod is an activity to encourage young minds to explore, experiment and innovate through daily use gadgets like an iron, fan, microphone & speaker and & more.

Tod- breaking stage: Separating the parts of the gadget

Fod- comprehension stage: understanding the mechanism, working and the principles

Jod- assembly stage: reassembling the gadget and trying to innovate more uses of the gadgets and their principles.

More than 200 students participated in these sessions till now. The current pandemic situation has put us through a challenge in conducting these sessions in person.

This led us to design InnoQuest- Digital, an the online version of Tod- Fod-Jod. It would be a 12 session series. Each of approx. 75 minutes, where the overall canvas of Digital world is presented by our trained facilitators to school and college students to get them to know, understand and stimulate.

Our first product would be using the smartphone as a case study of the Digital world. In this series, the entire hardware, software, infrastructure, platform, application, etc. will be explored to convey how they are interconnectedly operating and adapt to the growing needs of the user. It would touch upon related topics like Internet of Things (IOT), Artificial Intelligence (AI), Cloud computing, Augmented Reality (AR) / Virtual Reality (VR).

Details about the initial 2 batches is as below:

Saturday-Wednesday batch

Starting from 5-12-20

Session time: 5:30 pm to 6:45 pm

Both days same time

Sunday-Thursday batch

Starting from 6-12-20

Session time : Sunday: 9:00 am to 10:15 am

Thursday: 5:30 pm to 6:45 pm

Rs 1,500 for entire 12-sessions, if paid upfront

Our endeavour is to approach HODs & Principals of schools/institutes to attend the launch event and learn more about InnoQuest-Digital, which they can explain to the students & enrol them.
